## DETAILED ACTION

Claims 1-8 are pending in the case.

### ***Claim Rejections - 35 USC § 112***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, and by dependence, claims 2-8, are vague and indefinite in the recitation of "directly between members of distinct repeat sequence pairs", since it is not clear what is intended by this phrase. It is not clear what is intended by "directly between", and it is not clear whether it is intended that the sequence is between two different sequences, each of which belongs to a different pair, or whether more than two members of pairs are intended. Therefore, the claim is indefinite since the intended subject matter is not clear.

Claims 7 and 8 recite the limitation "the [a] first [second] adjacent pair of distinct inverted repeat sequences" in line 2. There is insufficient antecedent basis for this limitation in the claims on which the claims are directly or indirectly dependent (claims 5 and 1). It is not clear what is the first and second adjacent pair of "distinct inverted repeat sequences" referred to in these claims.

Any rejection of record in the previous action not addressed in this office action is withdrawn.
